

Agreement Between the Argentine Federation of Radiology (FAARDIT) , The Argentine Society of Radiology (SAR) and the Portuguese Society of Radiology (SPRMN)

The FAARDIT, SAR and SPRMN agree to establish a cooperation agreement with the purpose of promoting scientific exchange between both societies:

1. Promote the exchange of information and stimulate actions between both entities.

2. Encourage the participation of Argentine radiologists and SPRMN members in congresses, workshops, courses, and other scientific events organized by both associations.
 - FAARDIT and SAR commit, if requested by the other society, to send a representative to attend as a speaker, panelist, moderator, etc., at national congresses. The representative will be a recognized expert in Diagnostic Imaging. The name of the representative can be requested by the organizing society or suggested by the other society.
 - SPRMN will send a speaker to the Argentine Congress of Radiology, organized by FAARDIT and SAR, covering all expenses, and vice versa. The local society will be responsible for accommodation and registration costs. The sending society will cover the travel expenses for the speaker.

 - FAARDIT and SAR members will be entitled to a preferential registration fee, equivalent to that of SPRMN members, for courses and congresses organized by the SPRMN.
 - SPRMN members will be entitled to a preferential registration fee, equivalent to that of FAARDIT and SAR members, for courses, virtual activities, and congresses organized by FAARDIT and SAR.

3. Promote the training and integration of professionals through scholarships and exchanges between both radiological communities.

4. Promote exchanges between major academic and research groups.
5. Disseminate educational activities, books, journals, and publications in the specialty in both societies.
6. Facilitate the publication of scientific papers bilaterally.
7. Promote the translation of papers, protocols, and regulations.
8. FAARDIT and SAR offers to jointly coordinate with SPRMN those Continuing Education Courses deemed appropriate, providing our Technical Secretariat. These courses will include both local and Argentine professors. The Scientific Committee will consist of professors from both countries.

These concepts constitute the framework within which the Argentine Federation of Radiology (FAARDIT), The Argentine Society of Radiology (SAR) and the Portuguese Society of Radiology (SPRMN)
